

Victoria Squadron Commander's report
18 November, 2007 DCM

Good morning fellow Squadron members.

I am unable to attend today but I have two people in my place.

All is running fine in training - with these low numbers of students it is a dream to teach.

Victoria Squadron is still trying to get over this automatic membership which myself and others feel is wrong – I do not support this and it will maybe cause me to be a “rebel” in this matter.

We have started to make plans for a dinner and dance this year as it is our Squadron's 50th year.

Respectfully submitted

Greg Diemert
